SMFL | Think beyond, Act now

November 12, 2025

Sumitomo Mitsui Finance and Leasing Company, Limited
SMFL MIRAI Partners Company, Limited

Participation in Onshore Wind Power Project in the United Kingdom

SMFL MIRAI Partners Company, Limited (President: Akira Ueda; hereinafter "SMFL MIRAI Partners"), a wholly-owned subsidiary of Sumitomo Mitsui Finance and Leasing Company, Limited (President: Tetsuro Imaeda; hereinafter "SMFL"), is pleased to announce it has acquired a portion of shares in an operating U.K. onshore wind farm (the "Project") jointly with Equitix, the UK's leading mid-market infrastructure investor.

The Project consists of four operating wind farms located in both England and Wales, with 44 wind turbines and a total power generating capacity of 122.5 MW, equivalent to the annual power consumption of more than 67,000 British households. All power plants began commercial operations between 2013 and 2015. The SMFL Group has been partnering with Equitix in the field of infrastructure and renewables since 2023*[1].

Renewable Energy is an important element of the growth strategy for the SMFL Group, who engages in this sector in the Japanese domestic market, now with a cumulative total of more than 1.8 GW *[2].

The SMFL Group has identified "Environment" as one of four material issues and is actively working toward the realization of a decarbonized and circular society. The SMFL Group aims to accelerate its expansion for renewable energy generation overseas, especially in Europe and APAC region, and aims to become an end-to-end clean power solutions company.
